

Providing automation technology and services for process Control and asset optimization – in Saudi Arabia & world wide.

Success Stories

Another First for Saudi Fal

**DeltaV system, Designed Engineered with Cooperation of Emerson Process Management Team, Staged & FAT test for a client in Saudi Arabia for export to their subsidiary in Oman.**

• Saudi Fal has completed a TRACE Background review & IS A member in good standing May 15<sup>th</sup>, 2007 – May 14<sup>th</sup>, 2008

**The demo unit for Rosemount 3420 Fieldbus Interface Module at Saudi Fal**

\*This Interface Module provides the benefits of advanced Rosemount fieldbus products, even if you do not have a fieldbus system. It allows Fieldbus Process Monitoring in ANY Plant!

After successful completion of the system launch and Factory Acceptance Test (FAT) of Emerson system recently for one of our main customers, we are proud to announce 3 more successful FAT completion at our staging facility.

1. **WDPF System** – The FAT lasted for two days and all minor punch lists were closed out during commissioning.
2. **ESD System** – The FAT lasted for one week and no punch list items were left open.
3. **SDEC-Oman Project** – The FAT was accomplished in just 1 day. Period 8-May-07. This was due preliminarily to the fact that Saudi Client took advantage of the proximity of our Staging Facility and visited at many occasions to review the unit staging in progress.

Another Success for Saudi Fal Controls Valves Division

In April, a methanol producer in Saudi Arabia launched a project to re-instrument one of its older trains using a Yokogawa Centrum system. The plant was 100% Masoneilan® control valves with pneumatic positioners. Thanks to the persistence, diplomacy, and frequent visits from Saudi Fal, the end-user convinced Yokogawa to order 200 FIELDVUE DVC6000f (fieldbus) instruments for the project. Two additional orders for 45 more digital valve controllers are pending.

\* Mr. Franz Steffens has been in kingdom for the last two weeks visiting central, Western, Southern, and eastern Areas helping Customers and supporting us promoting Analytical process system sales & services support. He is planning to stay for additional 2 weeks with new strategic plans for Petrochemical and desalination plants.

\* **Internal IFS training** was held at Saudi Fal offices on 16<sup>th</sup> of May 2007 conducted by Mr. Kabbani (IT & QA Manager). Employees from various divisions attended the training course.

\* Our Sister company (ALBILAD FFS) was awarded a new project through Saudi Fal, it has 6 DCS panels to be assembled and tested in the staging area.

\* ALBILAD FFS expands its maintenance contract with Hadeed to cover 5 new manufacturing facilities in Hadeed due to the good skills that Albilad technicians proved to have during the last 4 years contract with Hadeed.

1<sup>st</sup> Carbotrade High Purity Onsite Nitrogen Plant

In a first for Carbotrade it delivered one of its largest P8A Nitrogen Unit compiled with a Deoxo unit to produce super purity Nitrogen with 3 ppm oxygen. The package included the air supply and purification unit to achieve dust free, oil free dry compressed air .
