

Providing automation technology and services for process Control and asset optimization – in Saudi Arabia & world wide.

Success Stories

SAUDI FAL – First DCS FAT Staging Facility in Kingdom.

Saudi FAL recently completed a major project utilizing the Emerson DCS System, DeltaV, for one of its main customers in Saudi Arabia.

The system components that form the basis of the DCS were constructed within the Kingdom of Saudi Arabia at Saudi FAL's panel manufacturer and sister company, Albilad Fire Fighting Systems.

This Staging facility was built by Saudi FAL to cater for the rising demand of DCS system staging in the Kingdom. The staging facility is fully equipped for assembly and building and will be used for all future projects. The Saudi FAL team is fully qualified to conduct pre FAT and FAT.

The complete DCS FAT was conducted over a two week period with customer representatives as well as Emerson Process Management personnel present.

* Saudi Fal got the 1st place in selling Gx Valves, assembled in Fisher Dubai facility, last month Feb, 2007 among all the representatives in the Middle East & Africa region. Thanks to Mr. Viswanath Kumar for his great efforts & contributions.

* Emerson Process Management, Middle East & Africa Leadership Round Table at 10th of January, 2007 in Dubai awarded to **Saudi Fal Control Division** for his outstanding performance received by Mr. Siva (Flow Dept. Manager)
